Transaction size **\$150,000+**. Rates based on meeting credit criteria with minimum 3 years in business. Subject to rate change and credit approval. Call for rates on transactions under \$150,000.

USE OUR MONEY TO MAKE MONEY!

Leasing is the largest single source for equipment financing. In fact, more than 80 percent of all Fortune 500 companies lease their machinery because they can free up working capital and lines of credit by keeping liabilities off their balance sheets. Leasing is a more effective means of controlling a large amount of equipment with a minimal cash outlay.

Apply Online at www.intechfunding.com

LOW RATES

Because we specialize in manufacturing equipment, we can offer better rates than most banks and "generalist" finance companies.

FAST AND SIMPLE

In most cases, we can approve you with a five-minute credit application. And the paperwork is simple too!

SMART

Dealing with someone who understands your business saves you time and money
